

“Target Wall” Competition

We are running a school competition to improve the target wall in the playground. The wall will eventually be split into segments that show the changes in the seasons throughout the academic year. We would also like the wall to be more useful for playing games against. The winning drawings will be awarded prizes and be incorporated in the mural. Enter as many times as you like!

Please use the template below to enter an **Autumn / Winter** design. The design **MUST** include; targets and seasonal weather. The design might also include elements of the school logo, such as the motto or the three children represented in the logo. Everything else is up to you. Please return completed entries to Mr Woodcock. Good luck!
